Yale Beats Harvard.

WASHINGTON CITY.

Charges against a Supreme Judge.

WASHINGTON, June 30.—General R. B. Mussey, a member of the Supreme Court, has placed a memorial in the hands of Proctor Knott, charging D. O. Humphreys, one of the Justices of the Supreme Court of the District of Columbia, with being totally unfit mentally, for Judge; that he is ignorant of law, incapable of logical reasoning and given to feeble, vapid and disconnected utterances upon the bench; devoid alike of legal point and common sense; that his being frequently intoxicated upon the bench and having sat at least in one case wherein he had a pecuniary interest in the result and that generally by his conduct as Judge he has hindered justice, rendered himself a public laughing stock, and brought discredit upon the court of which he was a member.

The Appropriation Bills.

WASHINGTON, June 30.—The House has passed a bill authorizing the use of the unexpended balance for ten days of next fiscal year. Republican Senators were in caucus from 10 until noon to-day discussing the condition of the appropriation bills and the dead lock with the House, but adjourned without reaching any conclusion.

Adjournment of Blaine Investigation.

The Blaine investigation has been adjourned until the 10th of July.

The Appropriation Bills.

NEW YORK, June 30.—The *Herald's* Washington special says: The conference committee on the legislative bill has been in session the whole evening and at midnight there was no agreement. The naval bill will be agreed on and passed. The postoffice conference will also be agreed on. The others, including the army, legislative and executive, consular and diplomatic, sundry civil, river and harbor and others remain subjects of disagreement. The Senate to-day adopted a joint resolution continuing the appropriations from last year for the most important bills for a period not exceeding thirty days. This was sent to the House which did not act on it and will not, as the House will claim its right to originate revenue bills, but it will if necessity exists, frame such a measure of its own and send it to the Senate. This will have to be done to-morrow as the new fiscal year begins on Saturday, the 1st of July, whether at 12 noon or at the previous midnight is an open question. The legislative day [illegible] at noon. Thus the last day of Congress is the 31 of March, which is held to end on the 4th at [illegible].

WASHINGTON, June 29.—The committee of conference on the [illegible] appropriation bill had another meeting to-day; but failed to agree. This fact will be reported to both Houses and another committee appointed.

Blocking the Wheels of Government.

The commandant at the Washington navy yard yesterday received orders from the Navy Department to close the yard on Friday, and all employes, comprising clerks, warehousemen, firemen, mechanics and laborers, to consider themselves furloughed from that time, in the event that Congress fails to pass the appropriation bill. Should this occur, marines will do patrol duty and machinists will be detailed from ships in commission to look out for the [illegible] fire engine in case of fire while sailors will take the place of regular ship-keepers on vessels laid up in ordinary.

Reducing Expenses.

To-day a reduction of $20,000 was ordered by the Postmaster General in working, one tenth portion of which will be borne by the New York postoffice. In consequence of the reduction in the appropriation of $220,000 for clerk hire, the question whether salaries will be reduced or the force cut down, has been left to the discretion of postmaster James.

Confirmed.

WASHINGTON, June 29.—Wyman has been confirmed as been confirmed as well as Glidden.

Jones' Speech on Silver.

WASHINGTON, June 29.—Senator Jones' last speech is the subject of much comment to-day. Every hearer or reader coincides that great ability is displayed in his sharp and logical answers to all the criticisms made by Booth, Morrill and Sherman on his former speech, but the very fact that his reasoning is so strong excites great alarm in many quarters that the Senate may concur with the House in its yesterday vote to restore the old silver dollar to free coinage and full legal tender, which is precisely the proposition first broached in Congress by Jones. He yesterday frankly avowed his position to be that not only the national debt is payable in silver coin, but all State, municipal incorporations and private indebtedness contracted in paper money can justly be paid in silver dollars which were unlimited until the year 1873, and that in no other way can the differences between debtor and creditor be fairly adjusted.

Public Debt Statement.

WASHINGTON, June 30.—Indications are that the debt statement to be issued to-morrow will show a reduction of over three millions.

Alabama Claims.

In the court of commissioners of *Alabama* claims to-day the following judgments are announced: L. E. Levy, San Francisco, for loss of merchandise by destruction of the *Tycoon* by the *Alabama*, April 27, 1864, $1,114 24; Claud Joseph, San Francisco, for loss of household effects and losses by destruction of the *Waverly* by the *Shenandoah*, June 28, 1865, $920; Joseph Palma, Half Moon Bay, California, for loss of same by destruction of the *Brunswick* by the *Shenandoah*, July 2d, 1865, $957. Adjourned to July 6th.

At a cabinet meeting to-day the President request[ed] Cameron to [illegible] temporary duties of Secretary of the Treasury. It is believed the question of the secretaryship of that department will be settled to-morrow or Monday.

[illegible] on Sargent et al.

The President has removed H. T. Yarryan, chief of special [illegible] division of the interior, revenue bureau. According to the *Times*, special Yarryan relates that upon two occasions he was required to visit the executive mansion to answer complaints made against him by Sargent, Logan and Spencer. His last visit was May 4th, when the President informed him that Senators and Representatives had complained that Yarryan was persecuting them. Yarryan said he was persecuting nobody, but was doing his utmost to detect and punish frauds upon the Government. "I regret to inform you," said Yarryan, "that many of those engaged in defrauding the Government have warm friends and earnest defenders among Senators, and prominent among these is Sargent." Yarryan then exhibited to the President reports received the day before from commissioners on the Pacific Coast relative to the seizure of distilleries. Yarryan says that Sargent always contended there was no illegitimate practices in the manufacture of whisky in that locality and his complaints to the President and demand for Yarryan's removal were rested upon the fact that Yarryan was directing his efforts to break up these crookedness. Yarryan in showing the President the reports said he did not know Sargent, but so long as he (Yarryan) was in the department he would strike at fraud wherever found, and would not stop to inquire who was to suffer from the blow. The President expressed satisfaction with Yarryan's explanation, and said he had heard nothing further from that quarter until to-day. It was stated by personal friends of the President that the cause of the removal was in procuring the removal of a special agent recommended by the President as a man crippled in the war, and whose character was known to the President to be excellent, and also vouched for by Solicitor Bluxford. Yarryan's attention being called to this removal, he assigned the reason for it, that the special agent had volunteered some testimony before the House committee reflecting on him. The President inquired into this matter and found that the witness was subpenaed to testify and that after stating that he knew nothing of his own knowledge concerning the subject of investigation, he had been compelled by the committee to give the names of some persons who had talked to him about it. The President then called Yarryan's attention to this explanation and Yarryan replied in substance: "Well the man talks about me on the streets and I won't have him in the service." Grant thereupon took the matter in his own hands and ordered Yarryan's removal.

Revenue News.

WASHINGTON, June 30.—The Commissioner of Internal Revenue, has written Yarryan a letter in which he takes occasion to compliment him for the manner in which he had discharged his official duties.

C. W. Eldridge chief of the direct tax division of the Internal Revenue office will succeed Yarryan.

Troops for the Rio Grande.

A report has been in circulation to-day that an increase of the cavalry force on the Rio Grande, and authorizing troops to cross the Rio Grande when ever it is necessary in order to recover cattle or other property captured by raiders.

Pratt Resigns.

Pratt will soon resign the position of commissioner of internal revenue.

Territorial Elections.

WASHINGTON, June 30.—The House committee on Territories have decided to delay reporting the bill for the regulation of Territorial elections until next session. The reason is privately understood to be a fear that its anti-female suffrage provision might injure the party of the majority in the fall campaign.

The Case of the Schooner Elizabeth.

At the request of Senator Sargent the Secretary of the Navy has telegraphed Admiral Reynolds, commanding our East India squadron, to inquire into the late seizure of the American schooner *Elizabeth* and protect American interests in that quarter of the world.

CONGRESSIONAL.

Senate.

WASHINGTON, June 29.—The Chair laid before the Senate a communication from the secretary of War endorsing the report of Gen. O. O. Howard, commanding Department Columbia, in regard to Senate bill to authorize the Vancouver Water Co. to lay water mains across Fort Vancouver military reservation, and Senate bill granting a right of way through the public lands over the Blue mountains in Oregon. Referred to committee on military affairs.

Mitchell moved to take up the resolution to pay P. B. Pinchback, late contestant for a seat in the Senate from Louisiana, an amount equal to the compensation and mileage of a Senator from the beginning of the term for which he was contestant to the termination of the contest. After discussion it was agreed the resolution should be considered on Saturday next.

Senate then proceeded to the consideration of House bill for the issue of coin and the substitutes proposed by the Senate committee on finance. After discussion, the whole subject was recommitted to the committee on finance.

Sargent, from conference committee on naval appropriation bill, made a report that the committee had agreed upon the bill and the Senate, bill providing for extension of time for completing the service and location of the Portland, Dalles and Salt Lake railroad, and the Senate bill for the relief of settlers upon certain lands in the state of Minnesota, House bill to authorize claimants upon even numbered sections of land within 20 miles' limit of the Northern Pacific railroad to make proof and payment for their claims at ordinary minimum rate of $1 25 per acre.

Morrill reported back the joint resolution recently submitted by the President to provide for defraying temporarily the ordinary and necessary expenses of the public service by extending the appropriation bills for the present fiscal year into the next, with an amendment providing that in no case shall such an appropriation be continued for a longer period than 30 days. The amendment was agreed to and the resolution passed.

Several committees on appropriations announced that they had failed to agree. Adjourned.

WASHINGTON, June 30.—Cameron, from the committee on foreign relations, reported favorably on House bill to carry into effect the Hawaiian treaty.

Morrill, of Vermont, said this bill was a financial question, and he moved it be referred to committee on finance. After discussion the motion was agreed to, and the bill was so referred.

At 1 15 the Senate took a recess till 5 P. M. on motion of Anthony, who stated in making the motion that it would be economy of time to take a recess in order to allow the conference committees on appropriation bills an opportunity to perfect those measures.

Republican Senators, except those on conference committees, shortly afterwards went into caucus again.

Upon reassembling Sargent moved to reconsider the vote on the House bill to carry into effect the Hawaiian treaty and referred to committee.

Morrill, of Vermont, opposed this motion and argued that it should be carefully considered by the finance committee.

Sargent said it was unusual to refer a bill reported favorably by one committee to another. He never knew of a matter of this kind being referred to another committee in such a silent way as this was.

Mitchell said he would have called for a reconsideration on the motion to refer this morning had he not looked over the Senate and found that the friends of the measure were not in.

After discussion Sargent agreed that the motion to reconsider might lie over to be called up hereafter.

The Senate then took up the House bill to continue the unexpended balances, to provide temporarily for expenses of the government for a period not to exceed 10 days. After some discussion the bill was amended and passed.

The amendment of the House to the bill to authorize the Congressional printer to continue the public printing, fixing the time at 10 instead of 60 days, was agreed to and the bill passed.

The Senate then took up the sundry appropriation bill.

At length the bill was reported to the Senate, the amendments concurred in and passed.

No quorum present, adjourned at 11 15 without further action.

House.

Finn introduced bills to create an additional land district in Idaho Territory, to provide for reduction of the area of Nez Perces Indian reservation in Idaho, and to protect bona fide settlers of unsurveyed public lands in Idaho, which were referred.

Lane asked leave to report a bill providing for the sale of desert lands in Modoc and Siskiyou counties, California.

Piper objected.

The House then proceeded to the consideration of the Geneva award bill, and was addressed by Frye who spoke in favor of distributing the unappropriated balance of award among the ship owners and merchants who had sailed under the American flag during the war.

Windom in charge of the bill, said the amount appropriated as it came from the House was $16,266,731 32. To this in coin, has been added $1,683,603 35. The following are the items of increase: $30,000 for impeachment trial of Belknap, $612,000 additional for public printing; $30,000 for general expenses of the District of Columbia, $70,000 additional for mint officers; $1,150,000 additional for public buildings throughout the country, $730,000 for the navy yard, $167,000 for Rock Island arsenal, $100,000 additional for signal service, $149,000 for capitol buildings and grounds; $187,300 for surveying public lands. The amendment appropriating $70,000 to defray the expenses of the Senate in the Belknap impeachment was agreed to.

Recess till evening.

The House adopted a resolution to adjourn from the 1st to the 6th of July, to attend the celebration in Independence Square.

The Senate amendments to the House bill making temporary provision for the ordinary expenses of the government for the next ten days were concurred in, and the bill was immediately sent to the President.

At the evening session the sundry civil appropriation bill came up. Several amendments proposed by the appropriation committee were agreed to, including those raising the appropriation for appraisers' stores at San Francisco from $50,000 to $100,000 and appropriating $200,000 for continuing work on the dry dock at Mare Island.

Sleicher, chairman of the committee, made a speech in favor of the bill. The measure was discussed at length, but no action was taken.

Lane made a speech in favor of the claim of Oregon for indemnity for Indian depredations. Adjourned.

BY ATLANTIC CABLE.

Servia Bent on War.

LONDON, June 29.—The *Pall Mall Gazette* says it is informed that private telegrams have reached London stating that Servia had definitely resolved to commence hostilities, and that a declaration of war has been, or is to be immediately published.

LONDON, June 29.—A dispatch to the *Times* from Cettinje reports that the Kutchi, a Servian tribe to the south of Montenegro having refused to give hostage to the governor of Scutari, he attacked them last Friday. The Kutchi have hitherto been hostile to Montenegro.

Montenegrin troops owing to the probability of complications, have been ordered to be in readiness to move.

The *News* says: The excitement here is very warlike, but the Prince's views are moderate.

Mukhtar Pasha is entrenched at Gortschko with 17,000 men.

A special from Vienna to the *Times* says General Ignatoff, in accordance with the treaty, has asked the Grand Vizier to explain the attitude of the Porte in regard to Servia. The Grand Vizier replied that Turkey will give a declaration to powers disclaiming an intention of attacking Servia or altering the position granted Servia by the treaty, but claiming the right of self defense in case of aggression.

PARIS, June 30.—A *La Liberte* dispatch from Belgrade says that city is placarded with a proclamation in which Prince Milan states that he puts himself at the head of 110,000 soldiers, not breaking bonds connecting him with Turkey but to obtain a special administration for Bosnia and Herzegovina.

LONDON, June 30.—A special from Belgrade to the *News* says: Bulgaria has issued a declaration of Independence. The newspaper *Zastava*, the organ of the Hungarian Servians, states that the Servian government has informed the Porte that Servia is no longer a vassal. The dispatch adds that at Belgrade on Sunday night, the Servian primate blessed 70 army banners and administered the communion to the army before commencing the campaign. The old Turkish flag staff on the fortress at Belgrade was demolished amid artillery salutes.

A Loop-hole for Terms.

LONDON, June 30.—The *Daily Telegraph's* Paris correspondent calls attention to the fact that Prince Milan's journey to the frontier must occupy forty eight hours. This leaves a last loop hole for negotiations.

A Vienna dispatch to the *Daily News* says it is officially announced that the Prince of Montenegro has telegraphed promising his utmost to preserve neutrality.

The *Bersagliere*, of Rome, has a special from Trieste saying that Turkey has offered the Prince of Montenegro the territory toward the sea if he remains neutral. The Prince would accept terms and has been advised to do so by Austria and England, but he fears popular resentment.

Turkish War News.

LONDON, June 30.—The *Standard's* Vienna dispatch says: Beyond some stray shots there has been no fighting between the Turks and Servians. Much [illegible] prevails at Belgrade and Semendria at the possibility of bombardment by Turkish gunboats. Sclavonic papers urge Austria to prevent Turkish gunboats from impeding navigation of the Danube. By such an act the Servians are prepared to block the river Drina in order to protect their camp at Schabatz.

RAGUSA, June 30.—The Turkish General Mukhtar Pasha is reported to be encamped with 12,000 men in the vicinity of Krestad. The Austrian government have sent instructions to the local authorities of Dalmatia not to exercise any great pressure on Herzegovinian refugees to return but to assist those desiring to do so. The distribution of subsidies to refugees has recommenced.

VIENNA, June 30.—Advices from Cettinje announce that a treaty of alliance has been ratified between Servia and Montenegro and has been in existence for a fortnight.

LONDON, June 30.—A Vienna dispatch says Prince Milan will arrive in camp at Belgrade early Saturday morning. Servia has given notice to foreign representatives at Belgrade of her intention to place torpedoes in the Danube if the Turkish gunboats quit Widden. The Servian army has among its officers 20 Russians and 30 Germans who have held commissions in the armies of their respective countries.

LONDON, July 1.—A Vienna dispatch says not withstanding Prince Milan's departure for the front immediate action seems to be deferred. Dispatches sent Thursday to the Servian agent at Constantinople contained important communications for the Porte. From this it would seem that Servia will try negotiations before appealing to arms. The above intelligence is confirmatory of a previous report that Servia had sent an ultimatum to Turkey. Seven thousand Montenegrans will co operate with the insurgents in Herzegovina. A special hospital train, equipped by the Empress of Russia, has arrived in Montenegro. Russian sympathizers also contributed six months provisions for the army and people of Montenegro. Servia has received a loan of 12,000,000 francs and donations amounting to 50,000 ducats.

A Berlin dispatch says opinion is growing here that the war may be localized. Confidence is placed in the mutual forbearance of England and Russia.

A Paris correspondent reports Prince Milan on leaving Belgrade harangued the troops and people as follows: "Soldiers and people of Servia, I leave the capital to join the valiant army which will aid me to fight victoriously the traditional enemy of my country and religion. Adieu until after victory.

A Berlin correspondent has private advices from Vienna that there is a marked coolness between Austria and Russia, and that the meeting of the Austrian and Russian Emperors at Reichstag may possibly be abandoned.

A Paris dispatch says advices from Montenegro say the apathy and hesitation manifested a few days ago has been succeeded by real political frenzy. Montenegrian delegates are positive that the Prince will eventually join the Servians.

Rifle Match.

LONDON, June 30.—W. Rigby won the Abercrombie cup in the rifle match.

Bank of England.

Amount of bullion gone into the Bank of England on balance, to-day, £58,000.

The Situation at Constantinople.

LONDON, June 30.—A letter dated June 23d says the new Sultan of Turkey, Murad Effendi, is overwhelmed with the difficulties of his position, and it is reported he contemplates abdicating in favor of his younger brother. The Turks are actively preparing to meet the Servian attack. The camps on the Bosphorus, opposite the Rapua, where they intended to assemble in considerable force, has been broken up, and every able man is being forwarded to the front. It is reported that the government has formed a desperate resolution of enlisting eighty thousand Bashibazouks throughout the empire, who, if they cannot do much as soldiers, may prevent the spread of insurrection by a constant menace of massacre of Christians. Yesterday Ignatoff, Russian embassador embarked his children aboard a Russian dispatch boat for Odessa. The General and wife remain, but the wives of the secretaries of the embassy have been sent to a place of safety. The reported recall of Gen. Ignatoff is not confirmed. Insulting and threatening letters reach him daily from various quarters, and he is certainly exposed to imminent danger. Zealous Mussulmans regard the government's resolution to quash sentences of Salonica authorities as evidence of subserviency to European powers, from which an aggravation of their hostile feeling towards Christians may be justly apprehended. The aspect of things here becomes more serious every day.

House of Commons.

In the House of Commons this afternoon Isaac Burt, home ruler member for Limerick county, moved the appointment of a select committee to inquire into the nature, extent and grounds of the demands of a large proportion of the Irish people for restoration of the Irish parliament with power to control the internal affairs of that country.

THE TERRITORIES.

The Colorado press is represented at the Centennial by files of forty-four papers published in the territory.

In the case of Harriet Patterson vs. the estate of O. Humason, deceased, tried at the Dalles, the past week, a verdict was given in favor of plaintiff for $1,000.

A young man named Shotwell had an encounter with highway robbers near Olympia, on last Monday evening. The villains were masked and armed, but Shotwell knocked them both down. They only got a shot from a revolver through his hat.

The Cheyenne papers announce the receipt of initial copies of the *Black Hills Pioneer*, published at Deadwood, by Laughlin & Merrick, formerly of Denver. No copies have yet been received at this office. The *Leader* pronounces it a very creditable paper, and quotes liberally from its rose-colored reports of Black Hills mining operations.

Seven men escaped from the Salt Lake penitentiary last week. They were Willis, a mail robber; Charley L. Williamson, Charles Patterson and James Cain, now under indictment for the murder of Warden Bergher, William Kinley the horsethief, Thompson Davis and Harry Mayfield, serving out terms of imprisonment of several years each, for larceny.

Semiahmoo, in Whatcom county, is the northernmost town in the United States, if we exclude Alaska. It is only about one mile from the British Columbia line, and is built upon a sand-spit upon the northern side of Semiahmoo bay. The population of the settlement is about 150. Institutions organized are, Methodist and Congregational churches, Temperance Society, Farmer's Club and Y. M. C. Association. The Congregational Society are to build a church this season. The people expect to have a Fourth of July of their own this season. We get the above from the Snohomish *Star*.

During the quarter ending May 31st, 30 warrants were drawn for payment on the Washington Territorial treasury, amounting in the aggregate to $12,679 37. The warrants paid during the same time numbered 64, of a value amounting to $17,689 51. The receipts of the quarter from all sources were but $6,796 67. On the 1st of March the treasury contained $26,200 61, which amount was diminished by the 1st of June to $15,308 15. The warrants outstanding are those ranging in number from 736 to 829, covering an amount of about $12,000, the whole indebtedness of the Territory, which the tax of 1876 will entirely wipe out. The principal expenditure of Territorial money is on account of the insane, which, during the three months under review, took over $9,000.

The President of the United States has presented to Mr. Andrew Laing, of British Columbia, a handsome binocular field glass in recognition of the recipient's kindness to the crew of the wrecked ship *Orpheus*, which was lost in Barclay Sound November last. The glass is suitably inscribed and was forwarded to Mr. Laing through Mr. Eckstein, U. S. consul at Victoria.

Maguire's Embezzlements.

SAN FRANCISCO, June 29.—Geo. E. Maguire, of the stock brokerage firm of Child & Maguire, was before the police court this afternoon to answer a charge of embezzlement of the sum of $2,000 from Truman C. Dexter. Dexter deposited $2,800 in currency with Maguire, on the 20th of March last, which he claimed was in the nature of a special deposit when Child & Maguire failed. Witness' name was placed to list of creditors, and he had not recovered his money. Maguire's book corroborated his statement that the money was not on special deposit, and the case was dismissed.

Suicide.

At an early hour this morning a man well known about town, to whose name several aliases are attached, walked to the end of Meiggs' wharf, and was seen to deliberately plunge into the bay without disrobing. Nothing more was seen of the individual by persons in the vicinity of the wharf, and the supposition is that he committed suicide.

Decoration of the City.

The decoration of the city for the Fourth is progressing rapidly. Many streets are being profusely festooned with flags, banners, mottoes, etc. The Chinese have followed the example, and Sacramento street, within their precincts, presents a gay appearance. The handsomest exhibition thus far is displayed on the wholesale houses on Battery street from Pine to Market.

Organized for the Campaign.

The Central Democratic club met this evening and organized for the campaign.

Man Cowhided by a Woman.

A great sensation was created on Maine street by a woman who is attached to Wood's Opera House, named Minnie Ross. She cowhided a hackman named Lathrop, for having, as she says, used foul language in her presence last night. She struck him several times with a whip, when he drew a pistol. Her husband came up and hit Lathrop with his cane, and another man seized him by the arm, and in this helpless condition he was compelled to take a terrible castigation from the woman. The husband was afterwards arrested and paid his fine.

Struck Gold.

A letter in the *Evening Express* from Soledad says, that the Chinese have struck gold in the bed of the creek near the north end of San Bernardino tunnel; the workmen deserted the tunnel to lay out claims. Quite an excitement has been inaugurated.

Drowned.

OAKLAND, June 29.—Jas. Carey, while loading his cart with bricks on Webster street wharf this morning, was pushed off by his horse suddenly backing against him, and was drowned.

Stock Broker Arrested for Embezzlement.

SAN FRANCISCO, June 30.—S. De Greayer, a well-known stock broker, was arrested to-day on complaint of Mrs. Meranda Barney, charged with embezzlement. DeGreayer, on his own statement, was carrying stocks on margin for complainant at the time of the failure of the Bank of California, which swamped him. Mrs Barney then commenced legal proceedings to recover the value of the stocks and margins held by DeGreayer, which culminated in to-day's arrest.

Smallpox.

Three cases of smallpox were reported yesterday afternoon, but none up to noon to-day.

Verdict against Bobtail Cars.

In the case of Catherine Hannava, run over by a bobtail car, at the corner of Mission and Fifth streets yesterday, the Coroner's jury found a verdict that the accident was due to the want of care on the part of the driver, and recommended that the use of bobtail cars be discontinued.

San Francisco's Health.

The Board of Health held a regular meeting to-day. A communication read from the health officer attributes the present heavy rate of mortality in the city to the hot weather and the defective sewerage in many portions of the city.

Contract Rescinded.

SAN FRANCISCO, June 30.—The board of supervisors held a special meeting to-night, at which the notorious Bateman contract for supplying the city, was rescinded, and the clerk ordered advertisements for new bids.

The Fire Cracker Question.

An attempt was also made to rescind the order forbidding boys to explode fire crackers, bombs, etc., on the 4th of July, but was ruled out of order. The boys or their friends have however discovered a flaw in the ordinance, which confines the prohibition to Chinese crackers, and propose to go ahead with their sports and test the ordinance if [illegible]. The fire cracker question has been a subject of a good deal of talk and newspaper comment for some days past. The opinion being apparently pretty well divided as to the policy of avoiding danger of conflagration or letting the boys have their good time in their own way. With the exception of steady pattering of fire crackers, bombs and explosives, the city is very quiet to-night. Centennial exercises may be considered to commence to-morrow, when appropriate services will be held in Sutter street and Mason street synagogues, which have been lavishly decorated for the occasion. Centennial services will also be held in many churches on Sunday.

Political.

A German Hayes and Wheeler club was organized this evening at Horticultural Hall.

RAILROAD MATTERS

TO THE EDITOR OF THE OREGONIAN:

In the Pacific coast dispatches it is stated that the people of San Bernardino, a small town in Southern California, had at a public meeting, "and before the meeting adjourned, subscribed over $100,000 as an inducement to a railroad company to extend its road to San Bernardino." My object in re-narrating the fact is simply to show the striking contrast between the people of Oregon, with its various unlimited resources, and those of Southern California, with its desert or burnt-up sand region. There we see private citizens of a small city with a few thousand inhabitants meeting together, and without any nonsense set to and subscribed *at once* over $100,000 towards a *local* railroad. Yet here in Oregon, with its 150,000 inhabitants, not a dollar can be raised to push and railroad enterprise ahead, although the whole State (especially Portland), is suffering severely for want of direct railroad connection. How long is this apathy going to exist in Oregon? Are the people of this State and Portland foolish enough to sleep on, thinking they will get railroad connection without paying for it in some way, as all other States and cities have had to do? The sooner we all realize the fact that we have got to pay something to get direct Eastern railroad connection the sooner will our State's resources be developed and our immigration annually increase twenty fold more than at present. Let us wake up to do something together. Yours,

A few days since, Mr. R. E. Purver, who lives in the hills south of Salem, lost a valuable mare, which dropped dead while at work. Death is supposed to have resulted from heart disease, as an examination showed a large tumor near the heart.

There will be a celebration of the 4th of July at New Era, Clackamas county, on Tuesday next, at which time the stars and stripes will be put up on a liberty pole, the Declaration of Independence read, speeches made and toasts offered. A good time is anticipated.

There is still plenty of good brush land vacant on the Nehalem river. Coal has been discovered in several places near the river. The people of Nehalem are workers and will soon have good homes in cultivation. They are at work on the State road and will soon make the north end home with them.

A worthy couple living in Washington county lately discovered while trying some legal business in Portland, that there was no record of their marriage. The law told them that their having lived together in conjugal relation made them man and wife legally. The husband was satisfied, but the wife would not listen to having matters lie in that shape. So this week they came to this place and got a license and were married before a Justice of the peace costing them altogether $9. They had been married six [illegible] and had several children.

The citizens of Pringle, Victory and Turner districts, will celebrate the one hundredth anniversary of our National Independence six miles south of Salem on Parrish Gap [illegible] near the Battle Creek bridge. Prayer by the Rev. J. Cole. Reading Declaration of Independence, by Mrs. Daniel Clark. Oration Mr. J. H. Wells, of Salem. Basket dinner. Toasts and [illegible], sandwiched with music.

From the Hillsboro *Independent*: The two days rain and cloudy weather last week was a godsend to the farmers. It insures the late sown grain. It threw down some grass on beaverdam lands, but that was a mere drop in the bucket compared with the advantage derived from it for the grain and vegetable crops. Oregon never goes back on the farmer. It rained last fall and winter and most of the spring, so that farmers could not get in their crops till very late, and it was feared that the dry season would set in and the late crops be a partial failure. But the gentle and never failing "mist" descended and the farmer and his wife can spend the glorious Fourth with hope as bright as the sunshine over their thrifty wheat.

The *Gazette* says: "On Monday, June 26th, the annual meeting of the Board of Regents of the State Agricultural College took place at the college in Corvallis, and among other the following important business was transacted: Morning session, Dr. J. B. Lee in the chair; the annual reports of standing committees read and referred to special committees to report at evening session. At afternoon session a full attendance was had. Special committees reported annual reports correct, which were passed unanimously. At this session the following business was transacted: The honorary degree of LL. D. was conferred on that old pioneer and legislator, Jesse Applegate, of Douglas county. The honorary degree of Doctor of Philosophy (Ph. D.) was unanimously conferred upon President Arnold, whose profound philosophical attainments fully entitle him to the honor. Profs. Arnold, Hawthorne and Emery were re-elected to their chairs in the faculty. Prof. McElroy was also re-elected to the charge of the preparatory department, with a salary of $1,000, an increase of $300 over last year. On motion Hon. John Burnett was chosen one of the regents of Corvallis College, to fill the vacancy caused by the death of Hon. J. C. Avery. On motion, Mr. Jacobs was elected a member of the board, to fill the vacancy caused by the resignation and removal of B. R. Biddle."

TILDEN AND HAYES—WHICH IS THE POSITIVE MAN?

The Chicago *Times*, which has been for some years waging a war of extermination against the Democratic party, comes out strongly for Tilden. That should be no matter of surprise, since that journal, even in its bitterest opposition to the Democracy has never abated for a moment its cold and relentless hostility to the Republican party. It has been so completely independent of all political organizations that it might without being chargeable with inconsistency oppose or support any candidate, even for the office of President. Its position in this respect has been an enviable one indeed. But the reason assigned by that paper for preferring Tilden to Hayes will not, we opine, be accepted as conclusive by the mass of its independent readers. It says Hayes has no positive views on any subject. Upon what subject of national importance has Hayes failed to declare himself? The question which for some time past has mainly attracted the attention of the country is that of the national finances. Has Hayes no well-known views on that subject? It was the leading topic of discussion in the canvass made last fall in Ohio, and Hayes was the leader of the sound-currency side of the discussion. On that question he won national reputation and beat the strongest man the Democrats had in the State. On the subject of the common schools also he made so vigorous an onslaught upon the reactionary Democrats that the whole party felt compelled to abandon its coquetting with the enemies of popular education and take a stand for unsectarian schools, which it would never have done but for the unqualified condemnation by the people of Ohio of the nascent anti-school tendencies of the party.

The *Times* thinks Hayes and Tilden occupy the same ground on the currency question. How does the *Times* know that, if Hayes has no declared opinion on any subject? But the facts hardly bear out the assertion. It has been heretofore supposed that Tilden was an uncompromising hard-money man, and hence that he and Hayes did occupy the same ground on that subject. Tilden has certainly given it to be understood in the plainest terms that he was opposed to all schemes for diluting the currency. But his present position does not tally very well with those declarations. His party, in their national convention, adopted a shuffling and equivocal platform on that subject, intended to be read by the inflationists as a greenback platform, and by the hard-money wing of the party as exactly the reverse. On this platform Tilden has accepted a nomination. Thus he goes back on his avowed principles to the extent, at least, of compromising himself and his followers. Not only this, but he comes before the people accompanied by a rag-money politician as candidate for Vice President and possible President. Tilden, by his present course, says to the country that the question of whether the national finances shall be conducted on sound principles or given over to the shinplaster demagogues, is a matter of no consequence, when weighed against his personal ambition. He is willing to see the currency debased if that is the price of his being President. To say, after the acceptance of this double-dealing platform and entering the contest with Hendricks for his second man, that he occupies the same ground with Hayes on the currency question, is to disregard facts or pervert language. He has placed himself alongside of Thurman and the rest of the Western shufflers, and not beside Hayes, on the great question of the hour. He can no longer be classed among the staunch advocates of sound currency, but among the confusionists who have no opinions which they dare maintain. The Democratic party, of which he is now the acknowledged leader, is composed of two sections: the inflationists, and noncommittal markers, and Tilden is to be classed with the latter.

OUR WOODEN PAVEMENTS.

The popular verdict seems to have been made up against the Nicolson pavement. The great cost and want of durability makes it an expensive street improvement, while, after a short season of heavy wear it becomes about as wretched a road to drive over as could be invented. Add to these facts the prevalent and very rational idea that so much decaying wood in this moist climate cannot but affect injuriously the health of the city, and it is not strange there should be a general condemnation of this sort of pavement. A new pavement of some kind will have to be adopted, especially on the principal business streets where much heavy hauling is to be done. At first the Nicolson is much the smoothest pavement yet tried, but that is only for a short time, after which the surface is uneven to a degree which even the old rough laid Macadam does not approach.

Now is a good time to abandon this wooden pavement experiment. Much of it will no doubt be found on the disappearance of the water to be so badly damaged that simply repairing will not do; new streets will have to be built. It would be too great a burden on adjacent property owners to have the Nicolson removed from those parts of the street where it can be repaired at reasonable cost; but wherever a new street must be made, let it be of stone. Stone pavement can be used even in small sections without inconvenience, while the rest of the street may be of wood. There is no difficulty about connecting the two kinds of pavement. And in the end it will prove less burdensome to property-owners. In a few years' wear the Nicolson becomes a more expensive pavement than stone, and then when stone is used the work is permanent. This is a subject worthy the attention of the Common Council at this time, because there will be so much work done on the streets soon, and it is for the interest of all parties that the work when done, be done to stay.

"D. W." forgot to send us his name, and his communication went to the waste basket, under the rule.

HENRY RODNEY MORRIS.

The sudden death of this estimable young man last evening by asphyxia has cast a gloom over the large circle of his friends in this city. He was about 19 years of age, and expected to start East in a few days to enter the University of Pennsylvania as a student. He came here from the East with his father, Bishop Morris, in the year 1869, and had endeared himself to all his associates by his genial, pleasant manners and manly conduct. The circumstances of his death, which are elsewhere stated in our columns, showed that he was a hero of the highest and truest type. He deliberately and consciously faced and met his death in the vain attempt to save the lives of others in whom he had no interest except that of a common humanity. In the May-morn of life, and with every promise of a bright and useful manhood, he has quickly passed from life to death. Another soul is added to the noble army of martyrs, who in all ages have sacrificed self to the dictates of duty, or in relieving others from danger or suffering.

By the passage of a joint resolution in Congress the wheels of government are allowed to turn on as usual for the time being. The dead-lock will now continue till after the fall elections—with the compromise resolution to keep the public service up in the meantime—and then if the people sustain the Senate by voting the Republican ticket, the House will probably recede; and if the country go Democratic, the Senate will surrender.

ASPHYXIA.

THREE PERSONS LOSE THEIR LIVES FROM SUFFOCATION BY ENTERING A CESSPOOL. NARROW ESCAPE OF A FOURTH PERSON.

Last evening about 5 o'clock a horrible accident took place at St. Helens' Hall by which three persons lost their lives. The names of the unfortunate victims are Thomas Neal, Mike O'Day and Rodney Morris. The circumstances attending the death of these persons are substantially as follows: For some time the cesspool connected with the water closet had become filled, rendering it necessary for a new one to be dug. Three men were employed to dig a new cesspool—O'Day, Neal and Sutherland. These men commenced work near the old one, and sunk a shaft about four feet in diameter to the depth of twenty feet. But a few feet separated the two places, and when the men had reached the depth named, they dug through the thin wall into the old cesspool near the bottom, for the purpose of drawing off the contents into the new one. As can readily be imagined, the stench which arose was unbearable, and while the contents was being emptied into the new receptacle, the men were compelled to withdraw for the time being. After most of the contents had flowed out, O'Day and Neal went down to finish some incompleted portion of the work. The bottom of the new cesspool was reached by means of a ladder. Without suspecting danger for one minute, these men descended the ladder. No sooner had they reached the place where the old cesspool was tapped than the deadly carbonic acid gas arising from the long pent up filth, overcame them, and loosening their hold on the ladder, fell off into the water and offal which had settled in the bottom to the depth of several feet. Sutherland, who was at the mouth of the opening near the windlass, perceived the danger of the situation, and gave the alarm. Rodney Morris, eldest son of the Bishop, was the first to respond to the alarm. He came running out, and looking down, saw O'Day and Neal struggling in the water and filth. How to rescue these dying men was the first impulse of his brave and manly heart; and disregarding all considerations of personal danger, he resolved to save them if possible. "Those men are drowning down there, and I'll save them, or die in the attempt," was the exclamation he uttered as he stepped into the bucket and told Sutherland to lower him. It was a noble, heroic act, worthy of a better fate; but it was performed at the sacrifice of a young and precious life. Only considering how he could rescue the imperiled lives of the men, Rodney did not observe the precaution of tying a rope around his body. Indeed, it is more than probable that the thought of the noxious gas did not occur to him in the haste and excitement of the moment. He had been lowered but a few yards before the deadly gas overcame him and he dropped into the water with those he was endeavoring to rescue from death. The alarm became general and the greatest excitement prevailed. One courageous gentleman who was present, fastened a rope about his waist and started down the ladder. He made two attempts to reach the bottom, but each time had to be hauled up. By holding his breath he succeeded the third time in reaching the bottom, and caught young Morris, but so powerful was the gas that he sunk down unconscious and had to be drawn to the surface by those at the top. He was senseless when drawn out, and was with great difficulty resuscitated by means of restoratives which were vigorously applied. As there was no possible method of getting the men out but by a grappling hook, a person was dispatched to procure one with all possible haste. However, one could not be obtained for some time—not until long after the men were dead beyond all possible hope of resuscitation. Probably half an hour elapsed from the time of the fatal accident until the lifeless bodies of the victims were drawn up, one at a time. Meantime Drs. Strong, Wilson, Glisan and Jones were summoned, and arriving at the scene, made every effort known to medical skill to bring back the men to life; but to no avail.

O'Day was aged about 35 years, and leaves a family. Neal was unmarried, and, so far as is known, has no relations in the State. He was comparatively a young man. Rodney Morris was the eldest son of Rt. Rev. Bishop Morris and was in his 18th year. He was a bright, intelligent boy, possessed of many noble qualities of heart and mind. The memory of the frank and open-hearted lad who lost his life in a heroic attempt to save the two men, will long be cherished by his bereaved family, school-mates and friends. The earnest sympathy of the whole community is extended to those who have lost a husband, father, son and brother by this shocking accident.

Itching of the scalp and falling hair checked readily. Preparations sent to all parts of Oregon and Washington.

S. E. Paddock vs R. D. Hume, H. L. Herman and Geo. W. Shaffer. This is a suit brought upon an undertaking given by the defendants Hume and Herman to the effect that one Geo. W. Shaffer should be and appear at a Justice's court, and should pay whatever judgment might be rendered against him in the action of S. E. Paddock vs Shaffer. Defendants claim that within the time required by law, they surrendered Shaffer in exoneration of their undertaking. The court directed the jury to find for the defendants upon the issue of surrender, but reserved the question of defendants' liability, notwithstanding the surrender to be passed upon hereafter. The jury accordingly returned a verdict for defendants.

Geo. W. Traver and D. C. McKercher, jurors, were excused for the term.

MILTON SHEPARDSON—WRIT OF HABEAS CORPUS.

After the discharge of Milton Shepardson yesterday in the district court of the United States, he was arrested on a warrant issued by the governor of the State of California on a requisition issued by the governor of Oregon. The attorneys for Shepardson immediately procured from Judge Shattuck an order for a writ of habeas corpus, and the writ was issued returnable this morning at 9 o'clock, and served on B. L. Norden, who held the prisoner in custody under the warrant by appointment of J. M. Boyd, sheriff of Baker county, who had the warrant. This morning Mr. Norden brought Shepardson into court, and returned the warrant in obedience to the writ. The return of Mr. Norden showing that the petitioner was held on a charge of violating a law of the State of Oregon, Mr. Thompson, district attorney, withdrew from the case, stating his relations to the plaintiff and requesting the court to designate some attorney to represent the State in the matter, Mr. Thompson proposing to appoint such person a deputy district attorney, not desiring to appear himself on account of the relations of attorney and client recently existing between himself and Shepardson in the U. S. court. The court granted the request, and designated E. A. Cronin, who has been appointed a deputy district attorney. The matter was continued to Saturday morning for hearing.

Keep the Liver Active.

The above is a sound health maxim. In order that the functions of digestion, evacuation and secretion shall be discharged with that degree of regularity and vigor which is essential to the well being of both body and mind, the liver, upon whose activity they are dependent for their due performance, must be kept in good working order. Calomel and blue pills, besides being hurtful mineral drugs, only partially and temporarily rectify disorders or sluggishness of the great biliary gland. Hostetter's Stomach Bitters, on the contrary, accomplish thoroughly what the above medicines fail in doing, and are besides a safe as well as potent remedy for disorders of the stomach, bowels and organs of urination, as well as an unequaled general invigorant. They are, moreover, a sterling antidote to malaria.

SATURDAY MORNING JULY 1 1876

TOM

Yes Tom's the best fellow that you ever knew
. . . . to the
When the ceiling fell crackling and the flooring fell
through
And I was not ready—there full in my view
What do you think my eyes saw through the fire
That crept along crept along nigher and nigher
But Robin my baby boy laughing to see
The shining! He must have come there after me
Toddled alone from the cottage without
Any one missing him Then what a shout—
Oh how I shouted For Heaven's sake men
Save little Robin Again and again
They tried but the fire held them back like a wall
I could hear them go at it and at it and call
Never mind baby sit still like a man
We're coming to get you as fast as we can
They could not see him but I could He sat
Still on a beam his little straw hat
Carefully placed by his side and his eyes
Stared at the flame with his baby's surprise
Calm and unconscious as nearer it crept,
The roar of the fire above must have kept
. . . . . . his mother's voice shrieking his
name
From reaching the child But I heard it It came
Again and again—O God—what a cry!
The axes went faster I saw the sparks fly
While the men worked like tigers nor minded the
heat
That scorched them—when suddenly there at their
feet
The great beams leaned in—they saw him—then
crash
Down came the wall The men made a dash —
Jumped to get out of the way—and I thought
"All's up with poor little Robin" and brought
Slowly the arm that was least hurt to hide
The sight of the child there when swift at my side
Some one rushed by and went right through the
flame
Straight as a dart—caught the child—and then came
Back with him—choking and crying but saved!
Saved safe and sound

Oh how the men raved
Shouted and cried and hurrahed Then they all
Rushed at the work again lest the black wall
Where I was lying away from the fire
Should fall in and bury me

Oh you'd admired,
To see Robin now he's as bright as a dime
Deep in some mischief too most of the time
Tom it was saved him Now isn't it true
Tom's the best fellow ever you knew?
There's Robin now—see he's strong as a log—
And there comes Tom too—
Yes Tom was our dog

An effort is now on foot to construct a bridge over the Nisqually river about four miles above Wagner's Ferry on the new road leading from Yelm prairie to the Nisqually plains. Citizens in both Thurston and Pierce counties are interested in the project and they may succeed in carrying the bridge to successful completion It very frequently occurs in winter that the upper and lower ferries on the Nisqually cannot be crossed on which occasions a bridge at the place designated would be a great convenience even to Olympians

Results of the Vicksburg Cut-off.—The cut-off at Vicksburg, Mississippi, has greatly alarmed the citizens The Vicksburg *Herald* admits that the river is gone, and that the only hope for a current past the city is in changing the channel of the Yazoo river, so as to bring it through Chickasaw bayou, and thence by canal in front of the city to the Mississippi. The *Herald* thinks this can be accomplished at a cost of about $300 000.
